

Sage FAS Fixed Assets

FAS Gov Asset Inventory

FAS Gov Asset Inventory offers a comprehensive solution to meet the unique requirements of state and local governments for fixed asset tracking and data collection.

Providing you with the flexibility you need to satisfy your specific requirements, FAS Gov Asset Inventory enables you to achieve total control over your fixed asset inventories, and efficiently create and track multiple physical inventories of assets at every step. You can thoroughly track your fixed asset inventory while eliminating lost or stolen assets and reducing insurance overpayments.

With an easy-to-use wizard that walks you through every step of conducting and reconciling your inventory, FAS Gov Asset Inventory makes automating your fixed asset inventory tracking simple. FAS Gov Asset Inventory allows you to efficiently perform physical inventories using state-of-the-art Windows Mobile barcode® readers. You can conduct multiple inventories concurrently at various sites and reconcile data at one central location. And, since it has more than 40 fully customizable fields, you can control data entry with notes and images to describe each asset record.

The flexibility of FAS Gov Asset Inventory allows it to support both “Baseline” inventories for creating an initial list of assets, and “Dynamic” inventories for verification of existing assets. Combined with FAS Gov Asset Accounting, you have a powerful tool to meet all of your reporting requirements.

From developing innovative products to providing quality customer support, Sage is dedicated to surpassing expectations in all aspects of your organization. For more information about FAS Gov Asset Inventory, please call us toll free at 800-368-2405, or visit our Web site at: www.SageFAS.com.

BENEFITS :

COMPREHENSIVE TRACKING

Check-In/Check-Out feature with activity history enables monitoring of mobile assets, and available user fields allow for data entry to be standardized. Photos, documents, and unique identification information of each asset can be stored including class, acquisition date, and much more, eliminating duplication in asset tracking and facilitating clean audits.

FLEXIBLE CONFIGURATIONS

With the wealth of features offered including configurable data fields, and “Asset Templates” that promote data integrity and accelerate the process of entering new assets, you can customize your Sage FAS Gov fixed assets solution.

STREAMLINED INVENTORY

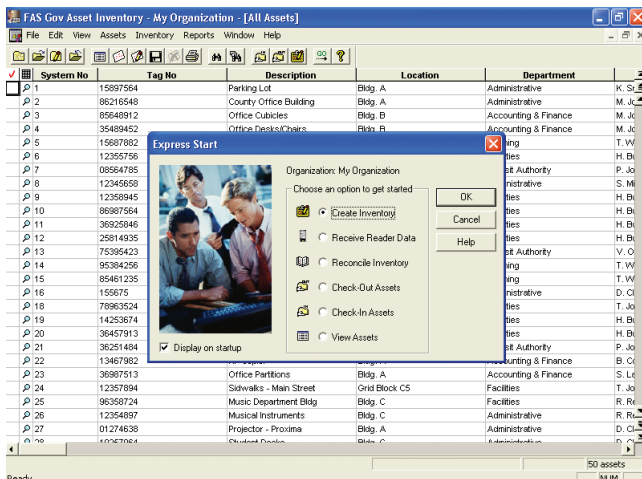

Asset labels and barcode readers complete the inventory solution: Optional components, durable, preprinted barcode labels made of polyester, foil, or aluminum and barcode readers make tracking assets quick, easy, and accurate.

SECURE ACCESS

Security profiles can be defined differently for each individual user who has access to the system, ensuring that only those who are allowed to change the data are able to.

QUALITY SUPPORT

Sage FAS SupportPlus members benefit from an unmatched level of customer support. Visit our online knowledgebase or call the Sage FAS Customer Support center, and our friendly, knowledgeable experts are ready to help. SupportPlus members can also download software upgrades, access multimedia tutorials and take advantage of exclusive discounts on new products.

FAS Gov Asset Inventory makes setting up inventory databases simple with the Import/Export wizard.

Powerful Reports

FAS Gov Asset Inventory provides the necessary reports for you to track your assets and obtain crucial information about individual assets or groups of assets. You can quickly and accurately report on:

- Fixed asset listing
- Asset detail
- Collected data from barcode readers
- Checked out assets
- Overdue assets
- Transferred assets
- Inventory exceptions found
- Fixed asset history
- Duplicate asset tag notification
- And more

FAS Gov Asset Inventory is designed to meet the number of assets of your organization:

FAS Gov 100 Asset Inventory

- Stand-alone or multiple network user seats
- Designed for entities with fewer assets

FAS Gov 500 Asset Inventory

- Faster processing times with Microsoft® SQL infrastructures
- Designed with client/server architecture and support for multiple databases
- Easily accounts for hundreds of thousands of fixed assets
